

What's on this week: 10-16 February

CULTURE

🕒 12:14 09/02/2023

There's plenty of cultural events to illuminate the week ahead, from festivals of all stripes to art exhibits and kids' activities

Find contemporary sculpture and striking installations at [Sculptura #1](#), the first in an annual event. The works, both human size and monumental, use the unique historical space provided by Gare Maritime to their best advantage, placed by more than 20 artists from around Europe. The organisers want to convince the capital's policymakers to commission more public sculpture, which serve as cultural landmarks and contribute to civic pride. Take a stroll around this free event to see which you could imagine finding a home in your local square. *10 February to 12 March, Rue Picard 11*

Check out more upcoming activities in Belgium at [The Bulletin's events page](#)
